DESIGN CONSIDERATIONS

Explore how the Vitality® Lighted Collection can transform your styling space with innovative storage and the ideal lighting for any task.

INTEGRATED LIGHTING

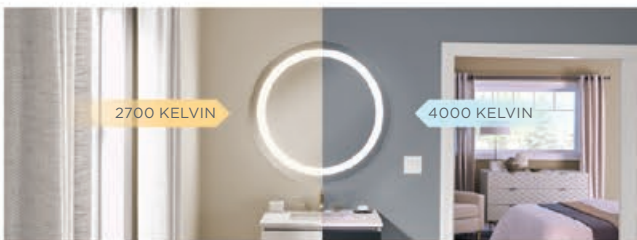

MAXIMIZE YOUR SPACE Vitality Lighted Mirrors and Medicine Cabinets provide bright, even task lighting that eliminates the need for overhead lighting fixtures or sconces.

TASK LIGHTING

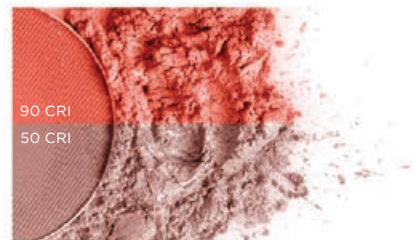

OPTIMAL TASK LIGHTING
 With a high lumen output and ideal placement in relation to the face and body, Vitality Lighted Mirrors and Medicine Cabinets eliminate harsh shadows and provide bright, even task lighting.

Eliminate the harsh shadows caused by ordinary lighting.

LED COLOR TEMPERATURE Choose your Kelvin color temperature to provide warm mood lighting or cool, energizing task lighting.

HIGH COLOR RENDERING INDEX (CRI) Remarkably accurate color rendering, with a CRI value of 90+ and R9 of 50+, ensures the truest reflection.

DESIGN CONSIDERATIONS

AMBIENT LIGHTING

IDEAL ILLUMINATION Achieve the decorative illumination of ambient light with Vitality® Lighted Mirrors, which creates a soft glow that envelops the space and brings a brilliant silhouette effect to your mirror for a natural warmth and relaxing, spa-like ambiance.

DIMMABLE LEDS
Select the ideal brightness for any task with smooth, continuous dimming to 1%.

CONVENIENCE

WAYFINDING LIGHT Dim the LEDs to create a soft lighting which provides visibility for wayfinding at night and illuminates the general space with low, diffused light that is soft on the eyes.

DEFOGGING Available in Vitality Lighted Mirrors, defogging technology ensures a clear reflection, so a steamy shower won't slow down the morning routine.

DESIGN CONSIDERATIONS

FOR MEDICINE CABINETS

INTUITIVE STORAGE

Personalize your styling space storage with add-on accessories including glass bins, a safety lock box, and tiered trays.
